KEY FEATURES & BENEFITS

- All 304 stainless steel construction makes baskets compatible with most cleaning processes. Type 304 stainless steel is acceptable for use with all alkaline solutions and many acids. Check with your Branson representative for confirmation of compatibility.
- Multiple mesh sizes are available to optimize the free flow of liquids and drying air while retaining parts in the baskets.
- Carryover and dragout of cleaning solution are minimized by open design and construction.
- Electro polished finish is standard on all baskets.
- Designed to be compatible with available Branson supplied TDR or Dual Axis Lift.
